Active Plus es un producto fotocatalítico que crea una película que impide la proliferación de bacterias. Actúa como principio activo en nuestros productos con beneficios antibacterianos, descontaminantes y de autolimpieza. >>Puedes ver el video escaneando este código.

Active Plus is a photocatalytic product that acts as an active ingredient in our products with antibacterial, self-cleaning and decontaminating benefits. The pieces in which Active Plus is applied are capable, in the presence of UV-A light, of initiating a nanoscale photocatalytic reaction resulting in three basic benefits. >>Watch the video scanning this code.
