

Stainless Steel Showerheads

ULTRASLIM by Ramon Soler®

Foto: **ULTRASLIM** formato circular colocación desde pared.

A bathroom is a confined space where one must use accessories with high durability. The materials we use are one of the most important factors in a project.

Ramon Soler® is in synchronisation with market needs by manufacturing quality items such as the **ULTRASLIM** showerhead which is 100% de polished inox.

Any moment is ideal to pamper oneself, and this can be totally true whilst taking a long shower.

With the **ULTRASLIM** showerhead by **Ramon Soler®**, we offer a truly modern and innovative showerhead. Its characteristics include an XXL format whilst having an extremely thin thickness (2mm) and being totally finished in stainless steel.

As the showerhead is 100% inox **Ramon Soler®** guarantees quality, durability and strength with **ULTRASLIM**. The stainless steel has a high resistance to chemical agents, does not rust and has a polished surface.

ULTRASLIM by **Ramon Soler®** follows the latest tendencies with pure thin lines and a very thin thickness. It is available in round and square formats and three sizes, all large dimensions: 250mm, 300 mm y 400 mm.

You can have it placed in any bathroom, from the ceiling or the wall, and so these two types of mounting allow a great amount of flexibility!

ULTRASLIM also has two exclusive systems: **An anti-lime scale system**, which helps to have a clear water flow, as well as an air system, which helps the showerhead work.

ULTRASLIM by **Ramon Soler®** has passed all the European Quality controls.

You can tell quality when you see it i

Formats & prices:

Ref. RK250
Square 250x250 mm
Ref. RK400
Square 400x400 mm
Ref. RK300
Square 300x300 mm
