

Get a Great TERMOKUATRO shower this summer by Ramon Soler®

Summer is the most fun season of the year, and we need comfort to maintain some small luxuries in life. This year, **Ramon Soler®** puts its emphasis on straight lines which is a forward thinking step as the latest trends denote exclusivity.

In order to reach perfection in a shower of these characteristics, **Ramon Soler®** presents the **TERMOKUATRO** set in which the minimalist style and square shapes are a great success. The great telescopic

shower set with a KUATRO 200mm showerhead and hand held shower form a sleek set in which the showerhead emits a spray which covers our whole body. Nothing is better at this time of year than a shower which is a curtain of water which resembles a rainshower. The **TERMOKUATRO** great shower has all the attributes of a perfect combination: design and functionality with an elegant freshness.
